This log report for last week will look different as due to the increase in traffic on BiblecomBibleman had to check it daily, the system could hardly handle weekly.

A few notes about the books, chapters, and blogs below: the full free PDF books are volume 3 (LCBC_3) of the 7 volume Learn Christ Bible Commentaries, Believe and Be Baptized, which covers the life and 14 NT letters written by the Apostle Paul; the BELIEVE AND BE BAPTIZED is another edition of the same volume 3; APPENDIXNDT part 1 and 2 is really The Literal Forever Kingdom, originally was the overflow appendix of volume 6; the complete title of Challenge is Friends of Jesus in this Bible and Computer Age, a challenge sufficient for the falling away; LCC_vol1b is of course part of Volume 1 of the LCBC Commentaries, The Master Tables of the Outline of the OT according to the NT; then LCCV2_CFI is

the Christ for Individuals volume 2 of LCBC which is the 5 books of the Apostle John; and last is LCLPNT in two parts which is the Learn Christ Large Print free New Testament. Yes, and New Sounds Faith is a newer edition of the book Some Sounds of Sound Faith, basic teachings of the Bible.

Total 160 Since this is for one day last week, to approximate the free downloads for the whole week multiply by 7 or 1,120 free downloads for the week. And this is a reminder that although some of these same full books can be bought on Amazon, with all these free downloads the motto of SunGrist and Jerry Vaughan McMichael remains the same as: Freely we have received, freely we give; and More Bible, More World.
